The actual founding of the company of BUMERANG SHIPPING, LTD. is in February 2006. The activity of the company is mainly focused in the field of shipbuilding, ship repairs, the building of metal structures and pipelines.

With its founding, the company started the performance as a subcontractor of Odessos Shiprepair Yard, JSC. in the field of hull welding and pipe works. During the first 3 months, the company made 8 repairs of the ship in the same field. Up the present moment, BUMERANG SHIPPING continues to expand its activities, performed for Odessos Shiprepair Yard, as except for the main types of works, the company already performs works in the field of the machine and electrical repairs and mounting.

After the passing of the first 6 months of its founding, BUMERANG SHIPPING, LTD. expanded its activity and started work in the field of the shipbuilding. Upon being selected to be the subcontracting company of „SHIP MACHINE – BUILDING, JSC. for the building of 2 new engineless barges ordered by BULGARIAN RIVER SHIPPING, JSC. Upon the release of the 2 barges, the company was engaged in the building of more engineless barges for the same owner.

BUMERANG SHIPPING, LTD. also participated in different additional operations such as the building of board sections, bottom sections, hatch covers, mounting of sections on stocks, etc.

In September 2007, the company received an offer from a Jordan company for the building of 2 working motor little ships, which were to be used as part of the process of production of salt in Jordan. Their building started in February and on 15th July 2008, they were delivered to representatives of the plant, after which we were offered to participate in the elaboration of future projects for other vessel facilities and their manufacture.

In March, BUMERANG SHIPPING, LTD. was invited by the President of TEREM - KRZ FLOTSKI ARSENAL VARNA EOOD start working as a subcontracting company of the shiprepair yard. Upon the implementation of a few repair works, a Framework Agreement on Close Cooperation was signed. On the territory of this shiprepair yard, the company was selected to be the main subcontractor in the repair works for the ships of
